

Your visit summary

Saturday, September 19, 2026 · with Dr. Halvorsen

Purpose of visit

You told the doctor, “my feet have been bothering me a bit”. The doctor found, “your A1C came back at seven point four”.

What your doctor advised

MEDICINE	WHAT CHANGED	HOW TO TAKE IT
metformin	Dose increased	1000 mg, twice a day
levothyroxine	No change	Keep taking it the way you have been

Call the office if...

“If your feet start going numb, or you get any sore on your foot that isn't healing up, you call the office. Don't wait for the six weeks. Call us.”

“If there's a sore, or numbness, you call. That's not a wait-and-see.”

Your next visit

Come back **in six weeks from today, which is Saturday, October 31**, to send you for bloods.

Prepared from a recording of your visit, made with your verbal consent on Saturday, September 19, 2026, and reviewed by Dr. Halvorsen, Saturday, September 19, 2026.

The recording is deleted when Dr. Halvorsen signs this page.
